Waste Disposal

House garbage and other wastes are regularly collected in the entire municipality by a waste disposal service provider employed by the municipality of Allschwil. The costs are covered by household fees. Payable waste stickers (Abfallmarken) must be stuck to the garbage bags.

The information on collecting days, collection points and point of sale of the waste stickers are listed in the "Infokalender", which is sent annually to all households.

For further information please visit the German website (Reference LEBENSTHEMEN, Abfall).
