

Restructuring of Hegenheimermattweg

Phase 2 construction begins Monday, 12. August 2019

On 26. November 2017 the people of Allschwil voted to approve the restructuring of Hegenheimermattweg. The restructuring project runs from Grabenring to the canton border of Basel-Stadt (see perimeter road map). The first phase of construction, at the border of Basel-Stadt, began in early 2019 and will end in July 2019. The next phase for the section Lachenstrasse to Hagmattstrasse will begin on 12. August 2019. Information concerning phase 3 (Hagmattstrasse to Grabenring) will be communicated separately and at a later stage.

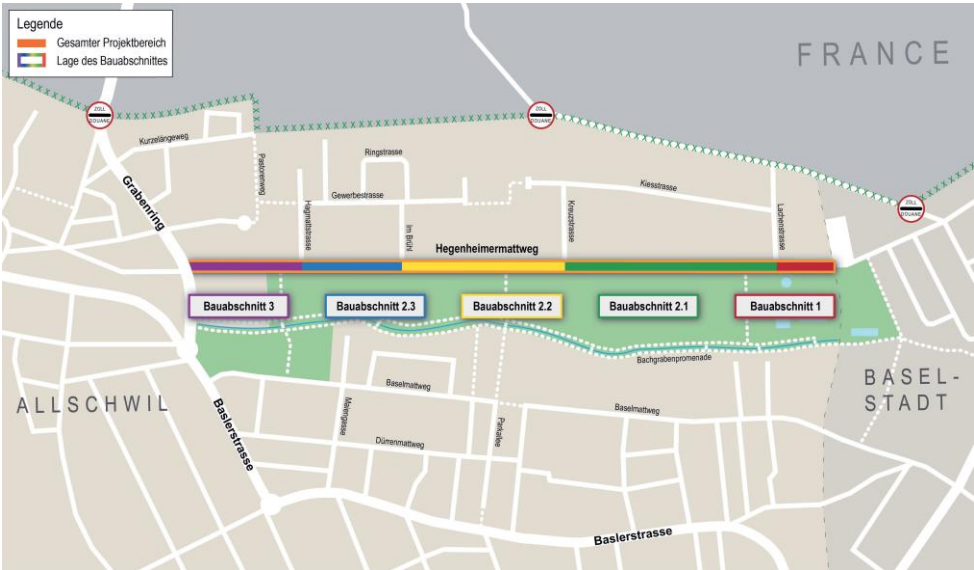

Staging of construction

Construction work of phase 2 will be carried out in 3 segments:

- Segment 2.1: Lachenstrasse to Kreuzstrasse
- Segment 2.2: Kreuzstrasse to Im Brühl
- Segment 2.3: Im Brühl to Hagmattstrasse

Construction will be executed on one side of the road at a time beginning with the industrial side.

Perimeter Road Map

Objectives of the restructuring of Hegenheimermattweg:

The main objectives for the restructuring are:

- Increasing traffic capacity
- Increasing the attractiveness of public transport through modern bus stops
- Increasing the safety for pedestrians and bicyclists
- Renewal of the road

Additional work surrounding the construction will also be executed:

- Water supply (Gemeinde Allschwil): replacement of current water pipes
- Electricity (Primeo Netz AG): new pipes to supply the complete BaseLink Area
- Natural gas (IWB): minor maintenance measures on the existing network
- Communication (Swisscom, UPC): minor expansion measures on the existing network

Traffic Concept 12. August to end August 2020

Segment 2.1: Duration 12.08.2019 – December 2019

Segment 2.2: Duration January 2020 – May 2020

Segment 2.3: May 2020 – August 2020

Legend

-  Construction site area
-  One-way traffic diversion
-  Traffic diversion on temporary connecting road

What does this mean for ...

Motorists

- Traffic towards Basel will be directed one-way through the construction site.
- Traffic towards Allschwil Dorf will be diverted via one of the parallel roads.
- During the construction of segment 2.2 a temporary connecting road will be built between Kiesstrasse and Gewerbestrasse.
- After completion of construction of segment 2.2 the temporary road will be removed and returned to its original state.

Public transport users

- Buses will be diverted in the same direction as motorists.
- The bus stops will be slightly shifted, depending on the construction phase.
- All bus stops will be in operation.

Bicyclists

- Bicyclists will have access in both directions through the construction site.
- It will also be possible to use the same diversions as other traffic.
- Obstructions are to be expected in the construction site areas.

Pedestrians

- A pedestrian walkway on one side of the road will be available at all times.
- Access to the bus stops and buildings will be provided at all times.
- Traffic controllers will be present at peak travel times.
- Pay attention to the direction signs and directions of the traffic controllers.

Locals / Businesses

- Access to entrances will be ensured however, obstructions are to be expected.
- If short-term closures are necessary, this will be discussed with those affected.
- Any night-work will be announced.
- Construction site emissions and noise should be expected.

We thank you for your understanding.
